"He that is grateful, has no guilt but one: All other crimes may pass for virtues in him."

ALL of a sudden there is a fearful struggle to get into the Bradley Band wagon, and some of the "strugglers" are the very fellows who have of late years been cursing BRADLEY by name—behind his back.

THE schoolteachers of Kentucky are among the first to feel the effects of Democratic financiering at Frankfort. They don't get their pay promptly. This cannot be said of Governor BRADLEY's Administration.

BEHIND November 1st the wages of all employees in the L. & N. Shops at New Decatur, Ala., were voluntarily advanced 10%. Another "heartless corporation" outrage! Carry the news to Doherty and to Gompers!

A SPECIAL from Paris says workingmen excavating the sewer ditch on Main street uncovered a fine vein of pure white zinc ore in front of JOHN T. HINTON's store. Nonsense! It was simply some of BULL HINTON's Free Silver that had melted and trickled through the mud.

SINCE Mr. BRYAN has bought a \$200 heater he does not need the support of the country Editors any longer. He can get more out of the heater than he can the Editors.—Cynthiana Democrat.

NOTWITHSTANDING BRER ALLEN'S conclusion, it's steen to umpty that WILLIE will continue to milk the country Editors also.

If an executive officer ever received a more bitter denunciation than Governor BREXIN gave Governor DUBIN in Tuesday's paper, it has never been given to the public.—Jesseville Journal.

In some quarters personal vituperation passes for argument; but thoughtful people prefer a calm, dignified tone in state papers such as Mr. BREXIN's response to Governor DUBIN was supposed to be.

COLUMEL W. O. BRADLEY is on top. He waited six years for his inning, and it has come.—Cynthiana Democrat.

Well, Brother, don't you know that "All things come around to him who will wait"—long enough?

AS the result of an election bet THOMAS P. WATTS of Louisville will not draw a straw. He let on the Republican ticket. It is not stated whether or not this is the same bet that Mr. WATTS was talking through when he made the bet.

BEFORE adjourning its session at Lexington the State Federation of Labor passed a lot of resolutions, one of which denounced United States Judge Evans of Louisville for taking measures to prevent the murder of non-Union miners in Hopkins county. The resolutions were offered by a colored Delegate named W. J. CAMPBELL.

WHAT "CORPORATIONS" DO!

When the Great western Siberian Railroad built it is credited with drawing a straight line across the map of Russia, and then remarking to its engineers: "Build me a railroad from here to there."

The result was 10,000 or more miles of railroad and some feats of engineering and engineering, and then remarking to its engineers: "Build me a railroad from here to there."

What do you think of a railroad from New York to Buenos Aires?

It is more than planned. It is under way. It was organized by capitalists years ago. The Government became interested to such an extent that a commission was appointed by the President to report on the feasibility of the project.

Matters rested. The job was too big, and the time was not ripe for such an undertaking.

Now it is different. No project is better than the ability of present day capitalists. Work is to be pushed the coming season in South and Central America.

The distance to be covered is 10,225 miles. Of this, 2,000 miles in the United States are already constructed, 1,800 miles in the Argentine, 1,000 miles in Peru, 150 in Bolivia, 500 in Argentina.

It only remains to fill up the connecting links, which is a matter of a little over 2,000 miles and an estimated expense of \$175,000,000.

No, Mr. Traveler, get ready for a railroad trip to Buenos Aires. When you buy your through ticket you will start on a direct journey so extensive that separate and distinct train crews will have helped you on your journey. Half a hundred locomotives will have hauled your train and you will have covered nearly half the distance around the globe on one railroad system, a system that will be built, equipped, owned and operated by Americans.

The world's National indebtedness is estimated at \$1,201,747,271—ten times as great as the world's National debt.

"HEADS AND TAILS!"

Louisville Democrat.

Democratic Chief Justice Paynter has decided that the Democratic election of officers of Lexington cannot be maintained into counting the duly elected Republican Magistrate in, and down at Russellville, Democratic Judge Crewdson decides that he can, and proceeds without further ado, to manumit the Republican election officers to make them count in a Democratic jailer who wasn't elected. "All element of chance has been eliminated" from Kentucky elections, and in the time-saver for the election rule is, "Democrats, you win, Republicans, you lose."

CALL MR. BRYAN!

Commonwealth of Kentucky.

The prosecution in the cases arising out of the murder of Senator Goebel has been insisted that the sole object was to discover the assassin and bring them to punishment. Whether their efforts have been crowned with success or not, the fact that the Court of Appeals of the state has reversed the judgments of the trial Courts as fast as they have been appealed answers with force. But a fact has been spoken that is commonly known, and which is a source of shame to the state. It is the fact that the Commonwealth of Kentucky has been unable to secure the assassin and bring them to punishment. But a fact has been spoken that is commonly known, and which is a source of shame to the state. It is the fact that the Commonwealth of Kentucky has been unable to secure the assassin and bring them to punishment.

The prosecution in the cases arising out of the murder of Senator Goebel has been insisted that the sole object was to discover the assassin and bring them to punishment. Whether their efforts have been crowned with success or not, the fact that the Court of Appeals of the state has reversed the judgments of the trial Courts as fast as they have been appealed answers with force. But a fact has been spoken that is commonly known, and which is a source of shame to the state. It is the fact that the Commonwealth of Kentucky has been unable to secure the assassin and bring them to punishment.

## MASON CIRCUIT COURT.

The Regular November Term Began on Time Yesterday Morning.

The fall term of the Mason Circuit Court began yesterday, Judge James P. Harbison on the Bench.

The following Grand Jury was impaneled:

John Clark, Foreman; Thomas L. Best, Charles Biggers, J. S. Ashbury, A. J. McDougle, Thomas B. Hughes, W. L. White, Fred Dinsell, C. A. Williams, Walter Worthington, John W. Holliday, Thomas Sesteny.

Court then adjourned till this morning.

## RIVER NEWS.

The pools in the Monongahela are well filled again and navigation for all craft on that stream is open.

A new steamer will be built for the Pittsburgh and Morgantown Packet Company at a cost of \$50,000.

Captain John F. Klein has purchased the Montreal Yellow Jupiter at Ashland for \$13,500. The steamer will be entered in the local towing trade.

The boilers on the Williams will be placed on the float when she comes off the Elizabeth Marine Ways, while the Williams will receive new ones.

There is plenty of snow on the mountains, and rivermen think that the present cool spell will soon break and let it melt out. That would mean a good coalboat river cure.

The towboat Albee Brown, now on the Queen City Marine Ways, will not be let into the river until there is a big rise, for she is a heavy boat, drawing 1 foot more than the J. B. Finley.

The rise in the river at Pittsburgh which came on Friday last was of very short duration. Only two small shipments of coal were made and none of the larger packet companies started steamers.

As a rule heavy rains fall about this time of the year, and it is most likely that before the coming water passes more will be reported from the headwater of the Ohio river and its numerous tributaries.

The Avalon is scheduled to leave Parkersburg tomorrow for Chattanooga, on the Tennessee river. The boat will take freight at various Ohio points. At Ironston she has been promised nearly 1,000 logs of nails, while in Cincinnati she will undoubtedly fare well. Since she has been at Parkersburg, the boat has been lengthened 30 feet, and various improvements made.

The rise in the Ohio river will cause activity in steamboat business, and several boats which have been to the banks for the past month will come out. The White Collar Line will send a Pomeroy boat on tomorrow night. The rise has permitted the steamer Helen M. Gould to leave Pitt. Pleasant in charge of her new owners Captain M. O. Schriver and R. W. Howe, and she will be placed in the Ohio-Cincinnati trade in place of the Cando.

West Virginia Courts Declare 'Squire Bensley's Marriages N. G.

The Parkersburg W. Va. Courts have taken a whack at some of the Aberdeen marriages performed by the late 'Squire' Masie Bensley, whose "May you live long and be happy" usually terminated the brief ceremony.

The West Virginia Courts have decided that the 'Squire's' ceremony was merely a form of marriage and not a legal contract.

Under these rulings May Bonworth of Parkersburg has just married Samuel Trisler, after believing for fifteen years that she was the lawful wife of William Buellier.

And there are others—thousands of 'em.

The first of all women missionaries in modern times was Hannah Moreham. She was born in England in 1767, and spent forty-seven years in missionary work in India.

It was William Pitt who originated the income tax in Great Britain in 1798 as the war tax. The Napoleonic wars were fought with it. From that time to this it has been the resort of all ministers to meet war expenditures.

England holds the record for the longest railway run without a stop. This is Paddington to Exeter—194 miles. France comes next, with Paris to Calais—193½ miles. America's longest run is New York to Troy—18 miles.

An electric cutter was recently put in the shirt factory located in Butler, Pa. The cutting is done with a circular knife, about six inches in diameter, which makes 2,500 revolutions a minute.

It is kept sharp by two miniature emery wheels attached above it. With this machine a man can cut nearly twice as many garments per day as by hand.

The power is furnished by a dynamo attached to a gas engine.

Get down to the facts of the matter. Don't take a stranger's word. It is easier to prove the truthfulness of statements made by citizens of Maysville than indorsement coming from some far away place. Read the following—

Mrs. O. P. Burgoyne of Hall street says:

"The use of Doan's Kidney Pills proved of remarkable value to me. For a long time I suffered from kidney trouble. Not only were there severe pains in my back, but also other evidences of a disturbed condition of the kidneys. Doan's Kidney Pills came to my knowledge and Mr. Burgess went to J. Jas. Wood & Son's drugstore, corner of West Second and Market streets, and got a box. The treatment was so effective that it has given me much pleasure to recommend this remedy to a number of my friends."
